SIEMENS

Established in 2004, POWERTECK has marked nearly 18 years of committed service in the Electromechanical industry.

With our uncompromising attention to detail and a firm commitment to getting it right, we have successfully delivered projects ranging from PKR 5m to PKR 80m. The profile of jobs executed span from commercial buildings, residential complexes, super specialty hospitals and educational campuses, to small & medium industries.

We take great pride in how our business has developed. We believe we could not have achieved this without listening to our clients, collaborating with the best, and working as an integrated team with a shared vision and common purpose to deliver an innovative, consistent quality service on time and , equally importantly, within budget.

The word “**POWERTECK**” reflects our Company and represents both the reason of its formation as well as keystone for its sustainability and swift transformation to a leading engineering and contracting company in our domain of expertise.

We have been able to grow both in terms of the portfolio and markets through exploring new horizons as Team POWERTECK is an aggregate of management team which shares the same passion, this the power of the people has been driving our Company’s evolution and growth.

A steady flow of orders from POWERTECK’s customers is very encouraging sign and a true reflection of their trust and confidence in POWERTECK management’s rich heritage and diversified experience. This recognition is inevitably based on POWERTECK’s persistent track record in delivering successful projects year after year.

Looking forward, we renew our pledge, insha-Allah, to remain committed to excellence, keep abreast of innovations, adopt advanced project management and construction techniques and continue with focused diversification and investment in Pakistan.

I thank all members of Team POWERTECK for their contribution and dedication and our valued customers and shareholders for their continued trust and confidence.
